- ◆ DITA OT 3.0 support [▶](#)
- ◆ XSLT 3.0 support
- ◆ Enhanced Packager [▶](#)
- ◆ Smart Paste
- ◆ Simplified XML Authoring
- ◆ Extensive DTD support

The leading choice of content creators across continents

See what industry experts have to say about our suite of solutions and how it has transformed their technical communication workflow.

“ I was amazed at how easy it was to open a large ditamap created outside of Adobe FrameMaker (2019 release) and how quickly it opened over 500 topics. It's cut down my go-to coffee time by 99%!

Don Stolee,
CEO & Founder, eGloo Technologies

“ Publishing a large document can be cumbersome, especially if you have to leave the authoring app to do it. You can cut the time it takes to publish and eliminate the cost of additional apps by utilizing the built-in publishing options like PDF and HTML5 in Adobe FrameMaker (2019 release).

Thomas M. Aldous,
Founder, The Content Era

“ We've been working with a major automotive client (top 10 car manufacturer) to migrate content to DITA for authoring and publishing. When working with sample files in Adobe FrameMaker (2017 release) it could take hours to generate output from some massive document sets. With Adobe FrameMaker (2019 release) we've seen a reduction to just minutes. Now, we can achieve hundreds of outputs in dozens of languages within days! For a day-to-day user the time and money saved is huge.

Bernard Aschwanden,
Founder & President, Publishing Smarter

“ Creating very large documents and running very compute-intensive scripts has caused lots of Adobe FrameMaker crashes due to simply running out of 32-bit memory space. With the complete overhaul of FrameMaker code to run native on today's 64-bit machines, this boundary has evaporated. With the 64-bit code of FrameMaker (2019 release), there is virtually no limit to the size of documents and scripted automation you can create.

Jang F.M. Graat,
CEO, Smart Information Design

Real Results. Realized!

700,000+ users across 30,000+ companies worldwide trust Adobe Technical Communication tools to deliver measurable gains!

Reduced production costs and improved documentation quality

30% faster publishing of custom manuals

80% boost in staff efficiency in editing manuals

99% reduction in output time for PDF and HTML files

80% reduction in turnaround time

20% more efficient production cycle

20% improvement in process efficiency

Faster creation and delivery of content for new products across devices

70% reduction in printing and paper material cost

Accelerated development of multilingual manuals

Improved enterprise efficiency and production of content

50% faster production of PDF documentation

20% faster development of course content

Accelerated publishing across formats

98% reduction in production time

Rapid production of multilingual manuals

Accelerated publishing cycles by up to 60%

Buying programs

Subscription Licenses – Individual

Affordable and always up-to-date

Individuals can easily get started with an online subscription from Adobe.com that gives full access to the latest version of the product with monthly or yearly plans. The license remains valid for the duration of the subscription period.

Term Licenses - ETLA

Customized term licensing

An Enterprise Term License Agreement (ETLA) is ideal for larger deployments across centralized organizations. Get cloud and desktop offerings and budget predictability over a three-year term, with one annual payment due on the same date each year.

Perpetual Licenses - TLP

No requirements, no contract

The Transactional Licensing Program (TLP) has no required contract agreements or memberships. It provides a quick, easy and cost-effective way to make a one-time purchase.

Subscription Licenses - VIP

Flexible subscription licensing

The Adobe Value Incentive Plan (VIP) is a subscription licensing program with simple and secure management capabilities, flexible terms and discount levels that increase as you make additional purchases. Qualified members can save even more with VIP Select.

Perpetual Licenses - CLP

Budget predictability and incremental savings

The Cumulative Licensing Program (CLP) provides savings through a two-year membership, and more savings through additional volume orders.

Education Licenses

Special plans for education

Get up to 60% discount on Adobe Technical Communication Suite for students and teachers.
